RETAILER SNAPSHOT

Loblaw’s sustainable seafood commitment is that all seafood sold in its stores will be from sustainable sources. Loblaw define this as fisheries certified by the Marine Stewardship Council (MSC), farms certified by the Aquaculture Stewardship Council (ASC) or products certified by an equivalent standard, “acceptable sources with conditions, or sources making meaningful progress toward sustainability”. In 2019, Loblaw’s score for reporting progress against their procurement commitment increased as a result of their disclosure through Seafood Progress.

Loblaw’s suppliers must sign a Code of Conduct that sets out mandatory minimum social responsibility standards and adherence to this Code is supported by independent, third party audits on all overseas suppliers. Loblaw is also committed to traceability for all its seafood products, by increasing the number of stores and distribution centers that have chain-of-custody certification (necessary for in-store labelling of MSC and ASC products) and by implementing a robust traceability system for non-eco-certified products.

SeaChoice recommends that Loblaw re-introduce a description of its sustainable seafood program for customers in store, continue to improve its labelling by introducing information such as scientific name and harvest method on its fresh and private label seafood products, and its transparency by disclosing information about its product sourcing through initiatives like the Ocean Disclosure Project.

In the process of developing this profile, SeaChoice corresponded with Jennifer Lambert, Senior Manager of Sustainability at Loblaw Companies Limited.

**STEP 1: DOES THE RETAILER HAVE A COMPREHENSIVE COMMITMENT ON SUSTAINABLE SEAFOOD?**

Does the policy include time-bound objectives for addressing environmental issues, social concerns and traceability?

The step score is based on the average of Step 1 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

Note that the KPIs changed from 2018 to 2019 to move the assessment of retailers’ traceability commitments from a stand-alone KPI to a component of the scoring for the KPIs relating to environmental and social commitments.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking the ‘June 2019’ button below the score bar.

**STEP ELEMENTS**
1.1 Has a publicly available commitment or policy to source more environmentally sustainable seafood

SCORING RATIONALE
In 2009, Loblaw committed to procuring all of the seafood sold in its stores from sustainable sources by 2013 (for wild-captured seafood, meaning it is certified by the Marine Stewardship Council or an equivalent standard, and for farmed seafood, meaning it is certified by the Aquaculture Stewardship Council or an equivalent standard). All seafood is procured in line with Loblaw’s environmental commitments and is supported by either third-party certified traceability (for eco-certified products) or Loblaw’s traceability policy (for non-certified products; personal communication, J. Lambert, 18/03/2019). Note that Loblaw’s sustainable seafood commitment does not include extend to Arz, T&T Supermarkets, Real Canadian Wholesale Club, franchised stores or Shoppers Drug Mart/Pharmaprix store.

Loblaw
National Average
1.2 Has a publicly available commitment or policy to source more socially responsible seafood

SCORING RATIONALE
Loblaw’s social responsibility policy is laid out in their Ethical Sourcing policy and Supplier Code of Conduct which sets out minimum standards that suppliers must meet. The Code addresses child labour, forced labour, discrimination, abuse or harassment, freedom of association, employment laws and overtime, reasonable living wages, safe working conditions, environmental protection, treatment of animals, and ethical conduct. All suppliers must sign this Code and be willing to submit to social responsibility audits at source by an independent third party. Loblaw has a traceability policy in place to support this commitment.

SCORING RUBRIC
- **0%** No publicly available social responsibility commitment or policy
- **20%** General commitment to socially responsible seafood without clear objectives, traceability policy or timelines
- **40%** Commitment to social responsibility includes clear objectives for socially responsible procurement (for example by referring to credible international standards such as ILO, UN Declaration, etc.), but no traceability policy or timelines
- **60%** Commitment to social responsibility includes clear objectives and actions or expectations for seafood suppliers, but no traceability policy or timelines.
- **80%** Commitment to social responsibility includes clear objectives, actions or expectations for seafood suppliers, and a clear and effective traceability policy, but no timeline
- **100%** Commitment to social responsibility includes clear objectives, actions or expectations for seafood suppliers, a clear and effective traceability policy, and a timeline for meeting the commitment (unless the commitment has already been met).

STEP 2: IS THE RETAILER COLLECTING DATA TO SUPPORT THEIR COMMITMENT?

What information is the retailer collecting to monitor the environmental and social sustainability of their seafood products?

The step score is based on the average of Step 2 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the ‘June 2019’ button below the score bar.

STEP ELEMENTS
2.1 Retailer collects data on species scientific (Latin) name for seafood products being sold - the "what"

SCORING RATIONALE
Loblaw collects data on species’ scientific names for all seafood products sold (personal communication, J. Lambert, 18/03/2019).

SCORING RUBRIC
0%  No data collected (or no information)  
50%  Data collected for some products  
100% Data collected for all products

2.2 Retailer collects data on country of origin of seafood products being sold - the "where"

SCORING RATIONALE
Loblaw collects data on country of origin for all seafood products sold (personal communication, J. Lambert, 18/03/2019).

SCORING RUBRIC
0%  No data collected (or no information)  
50%  Data collected for some products  
100% Data collected for all products
2.3 Retailer collects data on whether the seafood products being sold are wild or farmed - the "how"

**SCORING RATIONALE**
Loblaw collects data on whether all seafood products sold are wild or farmed (personal communication, J. Lambert, 18/03/2019).

**SCORING RUBRIC**
- 0% No data collected (or no information)
- 50% Data collected for some products
- 100% Data collected for all products

2.4 Retailer collects data on the gear type or farming methods for seafood products being sold - the "how"

**SCORING RATIONALE**
Loblaw collects data on gear type or farming method for all seafood products sold (personal communication, J. Lambert, 18/03/2019).

**SCORING RUBRIC**
- 0% No data collected (or no information)
- 50% Data collected for some products
- 100% Data collected for all products

**STEP 3: IS THE RETAILER MAKING RESPONSIBLE SOURCING DECISIONS?**

Are the retailer’s procurement decisions supporting their environmental and social sustainability commitments?

The step score is based on the average of Step 3 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.
Note that KPI 3.3 was changed in 2019 from "Retailer works with suppliers to address potential human rights and labour abuses, and support sustainable livelihoods for producers" to more specific indicators around retailers' agreements with their suppliers/vendors to uphold their environmental and social commitments.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the 'June 2019' button below the score bar.

### STEP ELEMENTS

#### 3.1 Retailer uses an established seafood certification or ranking standard to inform purchasing decisions.

**SCORING RATIONALE**
Loblaw conducts all sustainability assessments for potential products using in-house expertise and the expertise of its NGO partner, the World Wildlife Fund (WWF). Loblaw uses certifications programs, including MSC and ASC, and ranking systems such as Seafood Watch, to inform its purchasing decisions.

**SCORING RUBRIC**
- 0% No sustainability criteria used to inform purchasing decisions (or no information available)
- 100% Sustainability criteria used to inform purchasing decisions

#### 3.2 Retailer can demonstrate that X% of their seafood sold in the last three years meets their sustainability criteria by volume/value.

**SCORING RATIONALE**
After Loblaw met its target in 2013, the commitments laid out at that time have been incorporated in all subsequent purchasing decisions and all seafood is now procured in line with Loblaw’s environmental and social commitments (personal communication, J. Lambert, 18/03/2019). Note that Loblaw’s sustainable seafood commitment does not include extend to Arz, T&T Supermarkets, Real Canadian Wholesale Club, franchised stores or Shoppers Drug Mart/Pharmaprix store.

**SCORING RUBRIC**
- 0% Retailer has not reported in last three years how much of their seafood sold meets their sustainability commitment (or no information available)
- 25% Retailer can demonstrate that 25% or more of their seafood products sold meets their sustainability commitment
- 50% Retailer can demonstrate that 50% or more of their seafood products sold meets their sustainability commitment
- 75% Retailer can demonstrate that 75% or more of their seafood products sold meets their sustainability commitment
- 100% Retailer can demonstrate that 100% of their seafood products sold meets their sustainability commitment
3.3 Suppliers are required to sign a code of conduct to uphold the retailer's environmental sustainability commitment.

**SCORING RATIONALE**
All suppliers are required to sign a company-wide Code of Conduct and abide by commodity-specific procurement guidelines to ensure that all products they supply meet Loblaw's environmental commitment (personal communication, J. Lambert, 18/03/2019).

**SCORING RUBRIC**

- **0%**  Suppliers are not required to sign a code of conduct (or no information)
- **25%**  Some suppliers are required to sign a code of conduct that covers some of the retailer's environmental sustainability commitment
- **50%**  All suppliers are required to sign a code of conduct that covers some of the retailer's environmental sustainability commitment
- **75%**  All suppliers are required to sign a code of conduct that covers all of the retailer's environmental sustainability commitment
- **100%** All suppliers are required to sign a code of conduct that covers all of the retailer's environmental sustainability commitment and the retailer actively verifies that this commitment is being upheld.
3.4 Suppliers are required to sign a code of conduct to uphold the retailer's social responsibility commitment.

**SCORING RATIONALE**

Suppliers to Loblaw must sign a Code of Conduct that sets out minimum standards which suppliers must meet. This includes the requirement that suppliers must at all times comply with local laws and regulations (unless the provisions in the Code of Conduct provide a greater level of protection for workers, in which case these provisions must be met). Suppliers must agree that Loblaw may verify compliance of its suppliers with the Code of conduct, either through supplier self-evaluation or through an audit (either performed by Loblaw or an independent third party). Loblaw’s Code of Conduct for suppliers can be accessed [here](#) and its Ethical sourcing page can be found [here](#).

**SCORING RUBRIC**

- **0%** Suppliers are not required to sign a code of conduct (or no information)
- **25%** Some suppliers are required to sign a code of conduct that covers some of the retailer’s social responsibility commitment.
- **50%** All suppliers are required to sign a code of conduct that covers some of the retailer’s social responsibility commitment.
- **75%** All suppliers are required to sign a code of conduct that covers all of the retailer’s social responsibility commitment.
- **100%** All suppliers are required to sign a code of conduct that covers all of the retailer’s social responsibility commitment and the retailer actively verifies that this commitment is being upheld.

**STEP 4: IS THE RETAILER TRANSPARENT ABOUT THEIR COMMITMENT?**

Is the retailer making information regarding the environmental and social performance of their seafood products publicly available and are they reporting on progress against their sustainable seafood commitment?

The step score is based on the average of Step 4 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking on the 'June 2019' button below the score bar.

**STEP ELEMENTS**
4.1 Retailer labels seafood with the information that allows consumers to make informed decisions - what (species’ scientific name), where (country or region of origin), and how (wild/farmed and harvest method)

**SCORING RATIONALE**
In addition to the legally-required common name, some of Loblaw’s private label (e.g. own-brand) fresh and frozen seafood products are labelled with country of harvest and whether the product is wild or farmed, and some products (e.g. pole and line canned tuna) are labelled with gear type or farming method (personal communication, J. Lambert, 18/03/2019).

- Species Latin name (the what)
- Country of origin (the where)
- Wild or farmed (the how part 1)
- Gear type or farming methods (the how part 2)

4.2 Retailer labels products with an ecolabel, allowing consumers to make informed decisions OR all products fit under a standard and is communicated as such

**SCORING RATIONALE**
Loblaw’s private label and fresh-frozen products include the MSC, ASC and BAP eco-labels, as appropriate. In the last year, Loblaw has also increased the number of stores with MSC/ASC Chain of Custody certification, so that more eco-certified products that are packaged in store can be labelled with the MSC or ASC logos (personal communication, J. Lambert, 19/03/2019).

4.3 List of products procured with region and gear type data has been made available (e.g. as per Ocean Disclosure Project)

**SCORING RATIONALE**
Loblaw does not disclose this information.

**SCORING RUBRIC**
- 0% No list of products procured with region and gear type has been made available (or no information)
- 50% Some seafood products with region and gear type has been made available
- 100% All seafood products with region and gear type has been made available

4.4 Retailer publicly reports how much of its seafood meets its sustainability criteria (by volume or value of sales).

**SCORING RATIONALE**
Loblaw’s Corporate Social Responsibility (CSR) report for 2015 (page 13) stated that by the end of 2015, 94% of its seafood procurement was in line with its commitment (unit sales; does not include sales from Arz, T&T Supermarkets, Real Canadian Wholesale Club, franchised stores or Shoppers Drug Mart/Pharmaprix stores). Although Loblaw’s CSR reports for 2016 and 2017 did not include updates on progress against its seafood commitments, Loblaw disclosed this information through Seafood Progress in 2018 and 2019.

**SCORING RUBRIC**
- 0% No public information on how the retailer is doing to meet its commitment
- 50% Retailer has at one point in the past reported publicly how much of its seafood sold meets its commitment
- 100% Retailer regularly reports publicly how much of its seafood sold meets its commitment (by volume/value, at least every two years)

**STEP 5: DOES THE RETAILER EDUCATE STAFF, CUSTOMERS AND/OR VENDORS ABOUT THE IMPORTANCE OF THEIR COMMITMENT TO SUSTAINABLE SEAFOOD?**
Is the retailer educating their employees, customers, suppliers and other key stakeholders about their sustainable seafood commitment, environmental and social issues in seafood, and the importance of traceability?

The step score is based on the average of Step 5 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

Note that KPI 5.3 changed in 2019 from “Suppliers are required to sign a Code of Conduct to uphold the retailer’s sustainable seafood policy” (now covered by KPIs 3.3 and 3.4) to an indicator of what actions retailers have taken to educate their suppliers/vendors about their sustainable seafood commitment.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the ‘June 2019’ button below the score bar.

**STEP ELEMENTS**

**5.1 Training programs are conducted for seafood staff.**

**SCORING RATIONALE**
Regular training is conducted for Loblaw’s seafood staff as per the MSC and ASC chain of custody requirements (personal communication, J. Lambert, 13/03/2018).

**SCORING RUBRIC**
- **0%** Training programs not conducted for seafood staff (or no information)
- **50%** Training programs sometimes conducted or for only some seafood staff
- **75%** Training programs conducted for all seafood staff, but infrequently (less than every two years)
- **100%** Training programs regularly (at least every two years) conducted for all seafood staff
5.2 There is a description of the retailer's sustainable seafood program for customers in store

**SCORING RATIONALE**
There is a summary of Loblaw’s seafood policy in some stores, but not all. However, details of the program are online and customers can call customer service to find out more detailed information about specific products (personal communication, J. Lambert, 18/03/2019).

**SCORING RUBRIC**
- 0% There is no description of the sustainable seafood program in store (or no information)
- 50% This is some description of the sustainable seafood program in store
- 100% There is a comprehensive description of the sustainable seafood program in store

5.3 The retailer has taken actions to ensure its suppliers or vendors are aware of its sustainable seafood commitment or policy.

**SCORING RATIONALE**
Loblaw shares their sustainable seafood policy with their suppliers and vendors and engages them to ensure the products they supply meet Loblaw’s requirements. If needed, Loblaw will work with suppliers to find eco-certified sources for private brand products.

**SCORING RUBRIC**
- 0% The retailer has taken no actions OR no information available
- 25% The retailer sends its suppliers or vendors a copy of its sustainable seafood commitment or policy
- 50% The retailer shares its sustainable seafood commitment or policy and sometimes engages with its suppliers to help ensure the products they supply meet the retailer’s expectations.
- 75% The retailer shares its sustainable seafood commitment or policy and regularly engages with its suppliers to help ensure the products they supply meet the retailer’s expectations.
- 100% The retailer shares its sustainable seafood commitment or policy, has a clear strategy to engage with its suppliers and provides direct support (e.g. training, resources) to help ensure all seafood product are procured in line with its policies.

**STEP 6: DOES THE RETAILER SUPPORT IMPROVEMENTS IN FISHERIES AND AQUACULTURE?**
Does the retailer sell 'Priority Seafood' products (seafood that has high volume of sales in Canadian retail stores and that is generally not recommended by the Ocean Wise Seafood Program), and if so, do they support improvement and how?

The step score is based on the average of Step 6 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

Note that this Step was changed significantly in 2019 to introduce two additional 'Support Improvement' actions for each of the Priority Seafood products. This means that if a retailer was engaged in the same actions in 2019 as in 2018, and no more, their score will appear to have decreased. Additionally, KPIs 6.4 and 6.5 on other SeaChoice priority seafood products were generalized into a new KPI that allows retailers to showcase any other actions they are taking to support improvement of specific seafood products (besides shrimp, farmed salmon and skipjack), or to support improvements in seafood sustainability in general.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the 'June 2019' button below the score bar.

STEP ELEMENTS
6.1 Does the retailer support improvements in the production of farmed Atlantic salmon (either Canadian produced or imported)?

SCORING RATIONALE
Loblaw worked closely with the ASC and BAP certification programs on standard development and supply chain expansion. It aims to source its farmed salmon from closed containment or organic certified open water net pens. Loblaw preferentially sources ASC certified salmon for its private label products, and if this is unavailable then it will source BAP 2 star plus or organic certified products. All suppliers are required to meet Loblaw's general social responsibility commitments and traceability requirements (personal communication, J. Lambert, 18/03/2019).

✓ Only sells farmed salmon products that meet the highest bars for sustainability, i.e. are certified by ASC, Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)

✗ Outreach to policymakers to advocate for salmon farming management to be more environmentally sustainable and/or socially responsible

✓ Collaborating with other companies pre-competitively to improve salmon aquaculture practices

✓ Works with suppliers or producers directly to improve salmon farming practices

✗ Refrains from advertising versions of this product that are Not Recommended by Ocean Wise and/or ranked Avoid by Seafood Watch

✓ Preferentially procures farmed salmon from sources that are either Recommended by Ocean Wise or ranked Best Choice by Seafood Watch

✓ Preferentially sources from farms that are ASC certified

✓ Sourcing decisions also prioritize products with high levels of social responsibility and traceability

SCORING RUBRIC
0%  Sells the product and does not support improvements by doing any of the actions listed or no information available
14%  Retailer is engaged in one action to support improvement
26%  Retailer is engaged in two actions to support improvement
43%  Retailer is engaged in three actions to support improvement
57%  Retailer is engaged in four actions to support improvement
71%  Retailer is engaged in five improvement activities or doesn't sell the product
85%  Retailer is engaged in six improvement activities or doesn't sell the product
100% Retailer is engaged in all improvement activities or doesn't sell the product
6.2 Does the retailer support improvements in the production of imported farmed shrimps and prawns?

**SCORING RATIONALE**

Loblaw worked with the ASC and BAP certification standards on development and are now working on supply chain expansion. It preferentially sources ASC certified shrimp and prawns (which are also recommended by Ocean Wise) when available but note that currently there is a limited supply. When ASC certified products are not available, Loblaw sources shrimp and prawns that are at least BAP 2-star certified. All suppliers are required to meet Loblaw’s general social responsibility commitments and traceability requirements (personal communication, J. Lambert, 18/03/2019).

- Only sells farmed shrimp and prawn products that meet the highest bars for sustainability, i.e. are certified by ASC or BAP, Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)
- Outreach to policymakers to advocate for shrimp and prawn farming management to be more environmentally sustainable and/or socially responsible

6.3 Does the retailer support improvements in the production of skipjack tuna?

SCORING RATIONALE
While Loblaw prefers to source MSC certified skipjack tuna, availability and cost are common barriers. To try to address this, Loblaw has been working with suppliers to try and decrease the price point and increase availability. All suppliers are required to meet Loblaw’s general social responsibility commitments and traceability requirements (personal communication, J. Lambert, 18/03/2019).

✗ Only sells skipjack tuna products that meet the highest bars for sustainability, i.e. are certified by MSC,
荐 Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)
✗ Outreach to policymakers to advocate for skipjack fishing methods and management to be more environmentally sustainable and/or socially responsible
✗ Collaborating with other companies pre-competitively to improve skipjack fishery management practices
✓ Works with suppliers or producers directly to improve skipjack fishing practices
✗ Refrains from advertising versions of this product that are Not Recommended by Ocean Wise and/or ranked Avoid by Seafood Watch

6.4 Is the retailer engaged in any actions to improve production of any other seafood products?

**SCORING RATIONALE**

Loblaw is a Steering Committee member for the Sustainable Supply Chain Initiative (SSCI, run by the Consumer Goods Forum) and a founding partner of the Global Seafood Sustainability Initiative (GSSI). Loblaw engages as needed with policymakers on potential regulatory changes.

- ✓ Only sells versions of this product that meet the highest bars for sustainability, i.e. are certified by MSC/ASC, Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)
- ✓ Outreach to policymakers to advocate for harvest or farming method and management to be more environmentally sustainable and/or socially responsible
