SEAFOOD PROGRESS: WALMART CANADA

Legacy report of this retailer’s Seafood Progress profile as published in August 2020.

Report generated on: September 1st, 2020

REPORTING PERIOD
July 2019 - August 2020

LOCATION
Throughout Canada (except for Nunavut)

NUMBER OF STORES
Over 400

GROSS REVENUE
Over $30 billion

WEBSITE
http://www.walmart.ca

RETAILER SNAPSHOT

Walmart Canada’s sustainable seafood commitment states that by 2025 (subject to “price, availability, quality, customer demand, and unique regulatory environments”) all its fresh and frozen seafood, and canned tuna, will be from:

- fisheries certified by the Marine Stewardship Council (MSC), or
- farms certified by Best Aquaculture Practices (BAP), or
- producers certified by an equivalent program that follows FAO Guidelines and is recognized by the Global Sustainable Seafood Initiative, or
- fisheries or farms that are participating in credible improvement projects and/or are working towards achieving certifications.

SeaChoice commends Walmart Canada for publicly disclosing key sustainability information for all of its fresh and frozen wild-caught seafood products through the Ocean Disclosure Project. Walmart Canada is the first Canadian retailer to publish this information on the Ocean Disclosure Project, and at the time of publishing this profile, the only one.

In 2020, for the first time, Walmart Canada reported on its performance against its commitment; 87% of its fresh and frozen seafood is sourced in line with its sustainability policy.

Walmart has an extensive and detailed Responsible Sourcing Program and suppliers throughout the supply chain are expected to adhere to its standards regarding the ethical treatment of workers, workplace safety, and business practices. These standards are verified by social, safety and environmental compliance audits following a risk-based approach.

Building on this good supply chain engagement, SeaChoice recommends that Walmart Canada work to improve the labelling of the seafood products it sells to include information like species’ scientific names, geographic origin and harvest method. SeaChoice also encourages Walmart Canada to start reporting on its progress towards meeting its sustainable seafood commitment. Including a description of Walmart’s sustainable seafood commitment in store and in its e-commerce site would also help increase transparency and raise consumers’ awareness of these important issues.

In the process of developing this profile, SeaChoice corresponded with Walmart Canada manager of sustainability, and with Walmart’s environmental NGO partner, Sustainable Fisheries Partnership.
**Scope information:** see below for information on which types of products are included in the scope of Walmart’s sustainable seafood policy.

**STEP 1: DOES THE RETAILER HAVE A COMPREHENSIVE COMMITMENT ON SUSTAINABLE SEAFOOD?**

Does the policy include time-bound objectives for addressing environmental issues, social concerns and traceability?

The step score is based on the average of Step 1 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

Note that the KPIs changed from 2018 to 2019 to move the assessment of retailers’ traceability commitments from a stand-alone KPI to a component of the scoring for the KPIs relating to environmental and social commitments.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the ‘June 2019’ button below the score bar.

**STEP ELEMENTS**
1.1 Has a publicly available commitment or policy to source more environmentally sustainable seafood

**SCORING RATIONALE**

Walmart Canada’s sustainable seafood commitment is that by 2025, all suppliers of its fresh and frozen (farmed and wild) seafood products, and canned tuna, are sourced from fisheries or farms certified as sustainable by the Marine Stewardship Council (MSC) or Best Aquaculture Practices (BAP), or by an equivalent program that follows FAO Guidelines and is recognized by the Global Sustainable Seafood Initiative, and has traceability in place to support this commitment. Walmart is also committed to sourcing from fisheries or farms that are actively working towards certification, or fisheries or farms that are engaged in improvement projects that have “definitive and ambitious goals, measurable metrics and time bound milestones”. The achievement of this commitment is subject to “price, availability, quality, customer demand, and unique regulatory environments”.

**SCORING RUBRIC**

- **0%** No publicly available environmental sustainability commitment or policy
- **20%** General commitment to environmentally sustainable seafood without clear objectives, traceability policy or timelines
- **40%** Commitment to environmental sustainability that includes clear objectives for sustainable procurement, but no traceability policy or timelines
- **60%** Commitment to environmental sustainability includes clear objectives that are supported by references to credible standards (such as Seafood Watch or Ocean Wise rankings, eco-certifications, etc.), but no traceability policy or timelines
- **80%** Commitment to environmental sustainability includes clear objectives that are supported by references to credible standards and a clear and effective traceability policy, but no timeline
- **100%** Commitment to environmental sustainability includes clear objectives that are supported by references to credible standards, a clear and effective traceability policy, and a timeline for meeting the commitment (unless the commitment has already been met).
1.2 Has a publicly available commitment or policy to source more socially responsible seafood

SCORING RATIONALE
Walmart suppliers are expected to comply with Walmart’s Standards for Suppliers and applicable Responsible Sourcing Program requirements. The Standards for Suppliers apply throughout the supply chain and set out Walmart’s expectations of suppliers and their facilities regarding the ethical treatment of workers, workplace safety, environmental responsibility and appropriate business practices. Walmart has a well-developed traceability policy to verify compliance with its social responsibility commitment, and this is verified through the use of social, safety and environmental compliance audits which follow a risk-based approach.

STEP 2: IS THE RETAILER COLLECTING DATA TO SUPPORT THEIR COMMITMENT?

What information is the retailer collecting to monitor the environmental and social sustainability of their seafood products?

The step score is based on the average of Step 2 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the ‘June 2019’ button below the score bar.

STEP ELEMENTS
2.1 Retailer collects data on species scientific (Latin) name for seafood products being sold - the "what"

**SCORING RATIONALE**
Walmart collects species names (common and scientific) for all of its seafood products covered under its sustainability commitment (personal communication, S. Grimley, SFP, 19/06/2019).

**SCORING RUBRIC**
- **0%**: No data collected (or no information)
- **50%**: Data collected for some products
- **100%**: Data collected for all products

2.2 Retailer collects data on country of origin of seafood products being sold - the "where"

**SCORING RATIONALE**
Walmart collects country or region of catch for all of its seafood products covered under its sustainability commitment (personal communication, S. Grimley, SFP, 19/06/2019).

**SCORING RUBRIC**
- **0%**: No data collected (or no information)
- **50%**: Data collected for some products
- **100%**: Data collected for all products
2.3 Retailer collects data on whether the seafood products being sold are wild or farmed - the "how"

**SCORING RATIONALE**
Walmart collects information on whether its seafood products are from wild or farmed sources (personal communication, S. Grimley, SFP, 19/06/2019).

**SCORING RUBRIC**
- 0% No data collected (or no information)
- 50% Data collected for some products
- 100% Data collected for all products

2.4 Retailer collects data on the gear type or farming methods for seafood products being sold - the "how"

**SCORING RATIONALE**
Walmart collects information on gear type for all of wild-caught seafood products covered under its sustainability commitment, but does not collect farming method for farmed products (personal communication, S. Grimley, SFP, 19/06/2019).

**SCORING RUBRIC**
- 0% No data collected (or no information)
- 50% Data collected for some products
- 100% Data collected for all products

**STEP 3: IS THE RETAILER MAKING RESPONSIBLE SOURCING DECISIONS?**

Are the retailer’s procurement decisions supporting their environmental and social sustainability commitments?

The step score is based on the average of Step 3 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.
Note that KPI 3.3 was changed in 2019 from “Retailer works with suppliers to address potential human rights and labour abuses, and support sustainable livelihoods for producers” to more specific indicators around retailers’ agreements with their suppliers/vendors to uphold their environmental and social commitments.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the ‘June 2019’ button below the score bar.

STEP ELEMENTS

3.1 Retailer uses an established seafood certification or ranking standard to inform purchasing decisions.

SCORING RATIONALE
Walmart’s commitment for fresh and frozen seafood uses Marine Stewardship Council (MSC) certifications for wild fisheries and Aquaculture Stewardship Council (ASC) or Best Aquaculture Practices (BAP) certifications for aquaculture, or “certified by a program which follows the FAO Guidelines and is recognized by the Global Sustainable Seafood Initiative (GSSI) as such”. Canned light and white tuna suppliers must additionally comply with International Sustainable Seafood Foundation (ISSF) conservation measures from vessels on the Pro-active Vessels Register (personal communication, Walmart Canada Manager, Sustainability, 04/05/2020).

SCORING RUBRIC

0% No sustainability criteria used to inform purchasing decisions (or no information available)
100% Sustainability criteria used to inform purchasing decisions

3.2 Retailer can demonstrate that X% of their seafood sold in the last three years meets their sustainability criteria by volume/value.

SCORING RATIONALE
In 2020, for the first time, Walmart Canada reported on its performance against its commitment; 87% of its fresh and frozen seafood is sourced in line with its sustainability policy.

SCORING RUBRIC

0% Retailer has not reported in last three years how much of their seafood sold meets their sustainability commitment (or no information available)
25% Retailer can demonstrate that 25% or more of their seafood products sold meets their sustainability commitment
50% Retailer can demonstrate that 50% or more of their seafood products sold meets their sustainability commitment
75% Retailer can demonstrate that 75% or more of their seafood products sold meets their sustainability commitment
100% Retailer can demonstrate that 100% of their seafood products sold meets their sustainability commitment
3.3 Suppliers are required to sign a code of conduct to uphold the retailer's environmental sustainability commitment.

**SCORING RATIONALE**
Walmart’s suppliers sign a vendor agreement to ensure they will abide by all of Walmart’s policies, which includes the responsible sourcing policies. However, only some suppliers agree to the Seafood Policy requirements, based on the product being sourced (personal communication, Walmart Canada Manager, Sustainability, 04/05/2020).

**SCORING RUBRIC**
- 0% Suppliers are not required to sign a code of conduct (or no information)
- 25% Some suppliers are required to sign a code of conduct that covers some of the retailer’s environmental sustainability commitment
- 50% All suppliers are required to sign a code of conduct that covers some of the retailer’s environmental sustainability commitment
- 75% All suppliers are required to sign a code of conduct that covers all of the retailer’s environmental sustainability commitment
- 100% All suppliers are required to sign a code of conduct that covers all of the retailer’s environmental sustainability commitment and the retailer actively verifies that this commitment is being upheld.

3.4 Suppliers are required to sign a code of conduct to uphold the retailer's social responsibility commitment.

**SCORING RATIONALE**
Walmart’s suppliers are required to sign a vendor agreement which includes adherence to Walmart’s standards, and its responsible sourcing program. Following a risk-based approach, Walmart actively verifies that these standards are being upheld (personal communication, Walmart Canada Manager, Sustainability, 04/05/2020).

**SCORING RUBRIC**
- 0% Suppliers are not required to sign a code of conduct (or no information)
- 25% Some suppliers are required to sign a code of conduct that covers some of the retailer’s social responsibility commitment.
- 50% All suppliers are required to sign a code of conduct that covers some of the retailer’s social responsibility commitment.
- 75% All suppliers are required to sign a code of conduct that covers all of the retailer’s social responsibility commitment.
- 100% All suppliers are required to sign a code of conduct that covers all of the retailer’s social responsibility commitment and the retailer actively verifies that this commitment is being upheld.
STEP 4: IS THE RETAILER TRANSPARENT ABOUT THEIR COMMITMENT?

Is the retailer making information regarding the environmental and social performance of their seafood products publicly available and are they reporting on progress against their sustainable seafood commitment?

The step score is based on the average of Step 4 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the 'June 2019' button below the score bar.

STEP ELEMENTS

4.1 Retailer labels seafood with the information that allows consumers to make informed decisions - what (species' scientific name), where (country or region of origin), and how (wild/farmed and harvest method)

SCORING RATIONALE

Currently, Walmart offers an assortment of national brand products that indicate whether they are wild or farmed and the country of origin. At the time of publication, Walmart Canada's private label products do not include this additional information on their labels (personal communication, Walmart Canada Manager, Sustainability, 04/05/2020).

SCORING RUBRIC

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>Retailer does not label products with the information (or no information)</td>
</tr>
<tr>
<td>50%</td>
<td>Retailer labels some products with the information</td>
</tr>
<tr>
<td>100%</td>
<td>Retailer labels all products with the information</td>
</tr>
</tbody>
</table>
4.2 Retailer labels products with an ecolabel, allowing consumers to make informed decisions OR all products fit under a standard and is communicated as such

SCORING RATIONALE
Walmart uses the MSC or BAP eco-labels for products that are certified under those standards.

SCORING RUBRIC
0% Retailer does not label products with an ecolabel as appropriate (or no information)
100% Retailer labels products with an ecolabel as appropriate OR all products fit under a standard and is communicated as such

4.3 List of products procured with region and gear type data has been made available (e.g. as per Ocean Disclosure Project)

SCORING RATIONALE
In 2019, Walmart Canada publicly disclosed procurement information for all of its wild-sourced fresh and frozen products (private label and national brand) through the Ocean Disclosure Project. It is the first (and at time of publishing, the only) Canadian retailer to be disclosing this information through Ocean Disclosure Project.

SCORING RUBRIC
0% No list of products procured with region and gear type has been made available (or no information)
50% Some seafood products with region and gear type has been made available
100% All seafood products with region and gear type has been made available
4.4 Retailer publicly reports how much of its seafood meets its sustainability criteria (by volume or value of sales).

**STEP ELEMENTS**

4.4 Retailer publicly reports how much of its seafood meets its sustainability criteria (by volume or value of sales).

**SCORING RATIONALE**

Although Walmart Canada had tracking this information internally for years, it first reported publicly in 2020 (personal communication, Walmart Canada Manager, Sustainability, 04/05/2020).

**SCORING RUBRIC**

0% No public information on how the retailer is doing to meet its commitment

50% Retailer has at one point in the past reported publicly how much of its seafood sold meets its commitment

100% Retailer regularly reports publicly how much of its seafood sold meets its commitment (by volume/value, at least every two years)

**STEP 5: DOES THE RETAILER EDUCATE STAFF, CUSTOMERS AND/OR VENDORS ABOUT THE IMPORTANCE OF THEIR COMMITMENT TO SUSTAINABLE SEAFOOD?**

Is the retailer educating their employees, customers, suppliers and other key stakeholders about their sustainable seafood commitment, environmental and social issues in seafood, and the importance of traceability?

The step score is based on the average of Step 5 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

Note that KPI 5.3 changed in 2019 from “Suppliers are required to sign a Code of Conduct to uphold the retailer’s sustainable seafood policy” (now covered by KPIs 3.3 and 3.4) to an indicator of what actions retailers have taken to educate their suppliers/vendors about their sustainable seafood commitment.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the ‘June 2019’ button below the score bar.

**STEP ELEMENTS**
5.1 Training programs are conducted for seafood staff.

**SCORING RATIONALE**
Walmart Canada does not have ‘seafood counter staff’ in its stores because it doesn’t have seafood counters – rather it sells products prepackaged in freezers and coolers. Walmart does conduct training for staff responsible for seafood purchasing on a regular basis to ensure they are familiar with Walmart’s policy and progress to goal (personal communication, Walmart Canada Manager, Sustainability, 07/06/2019).

**SCORING RUBRIC**
- 0%  Training programs not conducted for seafood staff (or no information)
- 50%  Training programs sometimes conducted or for only some seafood staff
- 75%  Training programs conducted for all seafood staff, but infrequently (less than every two years)
- 100% Training programs regularly (at least every two years) conducted for all seafood staff

5.2 There is a description of the retailer's sustainable seafood program for customers in store

**SCORING RATIONALE**
Walmart currently does not have information on its seafood policy in its stores.

**SCORING RUBRIC**
- 0%  There is no description of the sustainable seafood program in store (or no information)
- 50%  This is some description of the sustainable seafood program in store
- 100% There is a comprehensive description of the sustainable seafood program in store
5.3 The retailer has taken actions to ensure its suppliers or vendors are aware of its sustainable seafood commitment or policy.

SCORING RATIONALE
Walmart shares its sustainable seafood commitment with its suppliers and requires quarterly updates regarding sourcing information from suppliers to ensure they are tracking toward Walmart's sustainability commitment. Walmart also provides direct support to its vendors through training on its data reporting requirements and seafood sourcing standards (personal communication, Walmart Canada Manager, Sustainability, 04/05/2020).

SCORING RUBRIC
- 0%: The retailer has taken no actions OR no information available
- 25%: The retailer sends its suppliers or vendors a copy of its sustainable seafood commitment or policy
- 50%: The retailer shares its sustainable seafood commitment or policy and sometimes engages with its suppliers to help ensure the products they supply meet the retailer's expectations.
- 75%: The retailer shares its sustainable seafood commitment or policy and regularly engages with its suppliers to help ensure the products they supply meet the retailer's expectations.
- 100%: The retailer shares its sustainable seafood commitment or policy, has a clear strategy to engage with its suppliers and provides direct support (e.g., training, resources) to help ensure all seafood product are procured in line with its policies.

STEP 6: DOES THE RETAILER SUPPORT IMPROVEMENTS IN FISHERIES AND AQUACULTURE?

Does the retailer sell 'Priority Seafood' products (seafood that has high volume of sales in Canadian retail stores and that is generally not recommended by the Ocean Wise Seafood Program), and if so, do they support improvement and how?

The step score is based on the average of Step 6 key performance indicators (KPIs, or step elements) listed below; click the + signs for more detailed information.

Note that this Step was changed significantly in 2019 to introduce two additional 'Support Improvement' actions for each of the Priority Seafood products. This means that if a retailer was engaged in the same actions in 2019 as in 2018, and no more, their score will appear to have decreased). Additionally, KPIs 6.4 and 6.5 on other SeaChoice priority seafood products were generalized into a new KPI that allows retailers to showcase any other actions they are taking to support improvement of specific seafood products (besides shrimp, farmed salmon and skipjack), or to support improvements in seafood sustainability in general.

If it looks like you are only seeing the score for one year it is because the score did not change from year to year. Try clicking off the ‘June 2019’ button below the score bar.

STEP ELEMENTS
6.1 Does the retailer support improvements in the production of farmed Atlantic salmon (either Canadian produced or imported)?

Walmart Canada

SCORING RATIONALE

Walmart Canada is not currently engaged in any of these actions.

✗ Only sells farmed salmon products that meet the highest bars for sustainability, i.e. are certified by ASC, Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)

✗ Outreach to policymakers to advocate for salmon farming management to be more environmentally sustainable and/or socially responsible

✗ Collaborating with other companies pre-competitively to improve salmon aquaculture practices

✗ Works with suppliers or producers directly to improve salmon farming practices

✗ Refrains from advertising versions of this product that are Not Recommended by Ocean Wise and/or ranked Avoid by Seafood Watch

✗ Preferentially procures farmed salmon from sources that are either Recommended by Ocean Wise or ranked Best Choice by Seafood Watch

✗ Preferentially sources from farms that are ASC certified

✗ Sourcing decisions also prioritize products with high levels of social responsibility and traceability

SCORING RUBRIC

0%  Sells the product and does not support improvements by doing any of the actions listed or no information available

14%  Retailer is engaged in one action to support improvement

26%  Retailer is engaged in two actions to support improvement

43%  Retailer is engaged in three actions to support improvement

57%  Retailer is engaged in four actions to support improvement

71%  Retailer is engaged in five improvement activities or doesn't sell the product

85%  Retailer is engaged in six improvement activities or doesn't sell the product

100%  Retailer is engaged in all improvement activities or doesn't sell the product
6.2 Does the retailer support improvements in the production of imported farmed shrimps and prawns?

**Walmart Canada**

**SCORING RATIONALE**

Walmart is a member of the Seafood Task Force and as such is actively collaborating with other companies pre-competitively to improve aquaculture practices (personal communication, Walmart Canada Manager, Sustainability, 12/06/2019). Walmart preferentially sources BAP certified shrimp and prawns.

✗ Only sells farmed shrimp and prawn products that meet the highest bars for sustainability, i.e. are certified by ASC or BAP, Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)

✗ Outreach to policymakers to advocate for shrimp and prawn farming management to be more environmentally sustainable and/or socially responsible

✓ Collaborating with other companies pre-competitively to improve shrimp and prawn farming practices

✗ Works with suppliers or producers directly to improve shrimp and prawn farming practices

✗ Refrains from advertising versions of this product that are Not Recommended by Ocean Wise and/or ranked Avoid by Seafood Watch

✗ Preferentially procures shrimp and prawns from sources that are either Recommended by Ocean Wise or Best Choice by Seafood Watch

✓ Preferentially sources from farms that are ASC or BAP certified

✗ Sourcing decisions also prioritize products with high levels of social responsibility and traceability

**SCORING RUBRIC**

0% Retailer sells the product and does not support improvements by doing any of the actions listed or no information available

14% Retailer is engaged in one action to support improvement

26% Retailer is engaged in two actions to support improvement

43% Retailer is engaged in three actions to support improvement

57% Retailer is engaged in four actions to support improvement

71% Retailer is engaged in five actions to support improvement

85% Retailer is engaged in six actions to support improvement

100% Retailer is engaged in all support improvement activities or doesn't sell the product
6.3 Does the retailer support improvements in the production of skipjack tuna?

**Walmart Canada**

**National Average**

**SCORING RATIONALE**

Walmart is committed to, by 2025, sourcing all canned light and white tuna from fisheries that are certified as sustainable by MSC or a program which follows FAO Guidelines on eco-labels and is recognized by the GSSI as such. Walmart preferentially sources from suppliers using better management fishing practices as validated through chain of custody (e.g. pole and line, free-school sets). Walmart is part of the Retailer Canned Tuna Forum and the Seafood Task Force Tuna Sub-group.

During the COVID-19 pandemic in 2020 when observers could not be on tuna vessels due to physical distancing rules, Walmart signed on to a letter to all the tuna Regional Fisheries Management Organizations calling for electronic monitoring in place of human observer coverage.

✗ Only sells skipjack tuna products that meet the highest bars for sustainability, i.e. are certified by MSC, Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)

✓ Outreach to policymakers to advocate for skipjack fishing methods and management to be more environmentally sustainable and/or socially responsible

✓ Collaborating with other companies pre-competitively to improve skipjack fishery management practices

✓ Works with suppliers or producers directly to improve skipjack fishing practices

✗ Refrains from advertising versions of this product that are Not Recommended by Ocean Wise and/or ranked Avoid by Seafood Watch

✓ Preferentially sources from more sustainable sources that are either Recommended by Ocean Wise or Best Choice by Seafood Watch

✓ Sourcing decisions also prioritize products with high levels of social responsibility and traceability

**SCORING RUBRIC**

- 0% Retailer sells the product and does not support improvements by doing any of the actions listed or no information available
- 14% Retailer is engaged in one action to support improvement
- 26% Retailer is engaged in two actions to support improvement
- 43% Retailer is engaged in three actions to support improvement
- 57% Retailer is engaged in four actions to support improvement
- 71% Retailer is engaged in five actions to support improvement
- 85% Retailer is engaged in six actions to support improvement
- 100% Retailer is engaged in all support improvement activities or doesn’t sell the product
6.4 Is the retailer engaged in any actions to improve production of any other seafood products?

**SCORING RATIONALE**

Walmart preferentially sources from fisheries and farms that are certified by MSC and ASC. It is collaborating pre-competitively with other companies through the Seafood Task Force, where it is actively engaged on several Seafood Task Force subgroups, including tuna, feed-focused and FIP working groups, as well as on the Seafood Task Force board. Walmart also engages at the global level with governments to help tackle illegal, unreported and unregulated (IUU) fishing (personal communication, Walmart Canada Manager, Sustainability, 12/06/2019).

- ✓ Only sells versions of this product that meet the highest bars for sustainability, i.e. are certified by MSC/ASC, Recommended by Ocean Wise and/or ranked Best Choice by Seafood Watch (100 pts)
- ✓ Outreach to policymakers to advocate for harvest or farming method and management to be more environmentally sustainable and/or socially responsible
- ✓ Collaborating with other companies pre-competitively to improve fishing or aquaculture practices
- ✗ Works with suppliers or producers directly to improve fishing or farming practices
- ✗ Refrains from advertising versions of this product that are Not Recommended by Ocean Wise and/or ranked Avoid by Seafood Watch
- ✓ Preferentially sources from more sustainable sources that are either Recommended by Ocean Wise or Best Choice by Seafood Watch
- ✓ Preferentially sources from fisheries/farms that are MSC/ASC certified
- ✗ Sourcing decisions also prioritize products with high levels of social responsibility and traceability

**SCORING RUBRIC**

0% Retailer sells the product and does not support improvements by doing any of the actions listed or no information available

14% Retailer is engaged in one action to support improvement

26% Retailer is engaged in two actions to support improvement

43% Retailer is engaged in three actions to support improvement

57% Retailer is engaged in four actions to support improvement

71% Retailer is engaged in four actions to support improvement

85% Retailer is engaged in four actions to support improvement

100% Retailer is engaged in all support improvement activities
